

OSHA 10 Hour Compliance Seminar

(General Industry)

Our company offers OSHA compliance training. This class is a fast-moving, interactive seminar designed to inform participants on how to read regulations, determine the most common cited OSHA regulations, and what to do if OSHA knocks on your door.

The seminar has interactive hazard violation workshops which show participants what issues can be cited and what needs to be done to correct the hazard. Our seminars include:

- Introduction to OSHA, OSH Act
- Subpart D – walking-working surfaces
- Subpart E – Means of Egress
- Subpart L – Fire protection
- Subpart O – Machine guarding
- Subpart S - Electrical
- Subpart I – Personal protective equipment
- Subpart Z – Industrial hygiene principals
- Hazard violation workshops

This is a great seminar for those professionals who need quick a OSHA regulatory reminder seminar, safety committee members, and first-time safety and health personnel.

STEP...up to compliance!
