

Shut Down/Safety Assistance

Our company assists with turn-around compliance issues to help save time and \$\$\$. We have over 25 years of onsite work with chemical industries, nuclear industries and maintenance operations. We provide services to augment your work or partner with you and operate as your site safety contact for contractors on your site. Onsite work includes:

- Fire watch
- Tail gate talks
- Job hazard analysis
- Contractor orientation training
- Lockout/tagout
- Scaffolding inspections
- Mobile equipment
- Powered industrial truck compliance
- Powered industrial truck operator observations
- Excavation requirements
- PPE requirements: safety shoes, respiratory, gloves
- Tie off and fall protection requirements
- Portable ladder safety
- Hazard communication
- Hearing protection
- Hand tools
- Machine requirements
- Electrical wiring methods: ground fault, extension cords
- Confined space permits

STEP...up to compliance!
