

Construction Services

Are you prepared for an OSHA visit? Could you provide the CSHO with the proper documentation to prevent unwanted citations? Are you truly providing a safe work place free of recognized hazards to your employees? If you can answer NO to any of the previous questions, you are at risk of an OSHA citation. Safety Training & Environmental Protection, LLC (S.T.E.P., LLC) has put together a construction binder with policies and procedures, written programs and toolbox safety talks to assist your company comply with OSHA 29 CFR 1926. The consultants at S.T.E.P. understand your tight schedules and ever changing project deadlines. We also understand the importance of compliance with State and Federal regulations that often dictate your ability to competitively bid. We are here to help. Our construction binder was constructed with the contractor and subcontractor in mind. In the past three years, OSHA has stepped up its visits to the construction industry. We offer regulatory compliance training, jobsite safety assistance, safety auditing, and program development. We can also be your voice in meeting with regulatory agencies. Let us S.T.E.P. in to help you save money and protect your greatest asset, your employees.
